About Me

Proactive and detail-oriented engineer with a passion for technology and innovation. I value collaboration, precision, and creativity in every project I contribute to. I'm driven by continuous self-improvement. I approach each day with the mindset of becoming 1% better, both personally and professionally, by learning, reflecting, and challenging myself to grow.

Skills

Software Engineering

- Software Architecture, Agile & Scrum, Testing, Continuous Integration

Programming Languages

- Python, Java, Kotlin, C, C++, JavaScript, Typescript, Dart, SQL

Frameworks & Tools

- Flutter, Grafana, Node.js, React, Docker, Git

IoT & Industry 4.0

- OPC UA, MQTT, Kafka, Digital Twins, Asset Administration Shell

Project Management

- Requirements Engineering, Team Coordination, Research Documentation

Languages

- English - Fluent
- German - Conversational (B1)
- French - Conversational
- Spanish - Conversational

Education

Master's Degree in Informatics and Computing Engineering

University of Porto - FEUP 2023 - 2025

This degree gave me a strong focus on software architecture, requirements engineer, agile methodologies, and Industry 4.0 technologies, combining research experience with practical software development.

Bachelor's Degree in Informatics and Computing Engineering

University of Porto - FEUP 2019 - 2023

This degree provided a solid foundation in computer science, software development, and testing practices, while enhancing my problem-solving and teamwork skills.

Course Certifications

Kotlin Development

Development of several apps and one personal achievement: the GymNote app to support my workout hobby.

Grafana

About data visualization, KPIs, and DB integration.

Intelectual Property

On research ethics, innovation protection, and technology transfer.

Web Portfolio

Website development and design.

Experience

Academic Experience

Student Association 2018 - 2019

Vice-President, António Sérgio Secondary School, Vila Nova de Gaia

Voluntering Club 2018 - 2019

Interact Club ESAS, Vila Nova de Gaia

Work Experience

Fellow Researcher 2023 - 2025

Scholarship Researcher at Instituto de Engenharia de Sistemas e Computadores, Tecnologia e Ciência, INESC TEC.

- Digital Twins development and IIoT architectures.
- Asset Administration Shell (AAS) to represent and manage industrial assets.
- Integration of communication protocols.
- Development of monitoring dashboards using Grafana.

Junior Researcher 2025 - Today

Junior Researcher at Instituto de Engenharia de Sistemas e Computadores, Tecnologia e Ciência, INESC TEC. In Addition:

- Contribution to the preparation of European research and innovation project proposals.
- Technological consulting to industrial partners.
